

Name: _____

Multiple-Step Problems

- a. Caleb wants to rent a kayak. Kayak rentals cost \$14.50 for a half hour. If Caleb rents a kayak for one hour and forty-five minutes, how much will it cost him?

Show your work and label your answer.

answer: _____

- b. Jasmine wants to organize her books in order of most number of pages to least number of pages. Jasmine's longest book has 396 pages and her shortest book has one-fourth as many pages as the longest. If the book in the middle of her shelf has three times the number of pages of the shortest book, then how many pages does the middle book have?
