## Probability Experiment

For this experiment, you will need two coins - a penny and a dime.
Each time you toss these coins, there are four possible outcomes:

| both <br> heads |  <br> dime tail |  <br> dime head | both <br> tails |
| :---: | :---: | :---: | :---: |
| (13 |  |  |  |

You will flip the pair of coins 20 times.

and the penny on tails?

Toss both coins 20 times and tally your results in the table below.

| both <br> heads |  <br> dime tail |  <br> dime head | both <br> tails |
| :--- | :---: | :---: | :---: |
|  |  |  |  |
|  |  |  |  |
