24. separated
25. memorized

About Your Spelling Words

To form the past tense of most verbs, you simply add the letters -ed. A few examples include: jump (jumped), wash (washed), cook (cooked).

If a verb ends with the letter e, you usually add the letter -d to make the past tense. For example: dance (danced), smile (smiled), love (loved).

Past tense verbs that do not end in -ed are called irregular verbs. Examples of irregular verbs include: buy (bought), forget (forgot), and hide (hid).
