The Harvest Moon will rise tonight.  
I'm working up an appetite.  
The pumpkins will be plump and round.  
We'll dig potatoes from the ground.  
We'll gather yams and yellow squash.  
We'll glean each juicy McIntosh.  
We'll dance and sing a happy tune.  
Thank goodness for the Harvest Moon.

## What is a Harvest Moon?

According to folklore, a Harvest Moon is the full moon that comes closest to the autumnal equinox. Depending on the year, this moon can appear two weeks before or two weeks after the equinox. In the Northern Hemisphere the autumnal equinox typically occurs in the end of the September. This means that the Harvest Moon
