The _____ need to be trimmed.

Did you know what's good for one plant can be deadly for another? Some plants grow better in dirt that's a little acidic. Others are the opposite and need basic soil. Some need lots of sunlight, while some mostly need shade. And don't forget water! Some plants need daily watering. Others will die if you do that. If a plant has a thick, waxy coating, that could be a hint you shouldn't water it very often.

That might seem like a lot to keep track of. It's worth it, though! Just like plants.
