

Make a Leprechaun Mask

With a Hat and Beard

Step 1: Cut out all the pieces.

Step 2: Trace the pieces on colored construction paper—trace the hat on green, the hat strap on black, the buckle on yellow, and the beard on orange.

Step 3: Cut out the construction paper pieces, along with a long strip of green to use around the head.

Step 4: Glue the black hat strap to the green hat. Glue the yellow buckle on top.

Step 5: Line up the beard and use glue or staples to connect it to the back of the hat.

Step 5: Staple the leprechaun mask to the long green strip, and wrap the strip around your head to measure size. Secure the strap with staples or glue.

Finished mask will look like this:
